

My AAGI Presentation

A. Person

January 3, 2026

Slide template including table

- ▶ Use the AAGI theme colours for emphasis (`\color{aagiteal}` for **AAGI teal**, `\color{aagigreen}` for **AAGI green**, and `\color{aagiblack}` for a AAGI black).
- ▶ Use `\pause` to add slide pauses to your presentation wherever you like.
- ▶ Use `\footnote[frame]{\fullcite{blah}}` to include footnotes at the bottom of the current slide like so.¹ References should be entered in bibtex/biblatex format in the `references.bib` file.

An example of an AAGI-themed table could be done as follows:

Table Heading	Next Heading	Another Heading
Table Subheading		
blah	2	3
